

# COVID-19 TESTING

## FREQUENTLY ASKED QUESTIONS

### Who can be tested?

Testing is available for all individuals exhibiting COVID-19 symptoms, anyone without symptoms, and anyone who feels they may have been exposed.

### Is there a cost for testing?

MyCare Health center will bill your insurance for testing costs.

### What if I don't have insurance?

Patients without insurance can use our sliding fee program to help pay for costs associated with testing and, if needed, continued treatment.

### What kind of test is performed?

MyCare Health Center staff perform a nasal swab test (anterior nares) that looks for evidence of active COVID-19 infection. This test can be administered to both symptomatic and asymptomatic patients. Patients with symptoms should receive a rapid test. If the rapid test comes back negative on a symptomatic patient, they will be asked to return within 24 hours to be retested.

### Do I need an appointment for testing?

Yes, please call 586-596-2112 so a staff member can schedule an appointment for testing.

### Do I need a prescription?

No, a prescription is not required to be tested.

### How soon will I get results?

Test results are typically available within 3-5 business days for a PCR send off test and 15 minutes for a rapid test. MyCare staff will contact you with your results.

### What happens if I test positive?

If your test comes back positive for COVID-19, your health care provider will follow up with you regularly to make sure your symptoms can be managed at home.

### Is it possible to get a positive test result but not have any symptoms?

Yes, in some cases individuals will test positive for COVID-19 but have little to no symptoms. In these instances, your provider will help coordinate a plan for home isolation and considerations for your family.
